Philadelphia, April 20.-Arthur Taylor and Baldwin S. Bredell, engravers, who were arrested in this city in connection with the counterfeiting con-spiracy discovered by Secret Service officials, were arraigned before United States Commissioner Ed-munds this afternoon. They waived a hearing and were held in \$20,000 bail each.

nmissioner Edmunds announced that in order to fix the amount of bail it was necessary to take ne testimony. He accordingly called John E. Wilkie, chief of the Secret Service, to the stand. After identifying the prisoners Chief Wilkie testifled that, in company with six Secret Service agents, he visited the engravers' shop and arrested the two men. In the workroom were two engraving desks, and each prisoner was required to designate his. Under Bredell's table there was a drawer fastened with a Yale lock. In this drawer were found two unfinished counterfelt cigar-stamp plates. Both men refused to say who had last worked on Later the detectives found a \$50 silver certificate plate, and under a machine in anothe part of the room was discovered a proof of the back of a fifty-dollar note. Chief Wilkie testified further that both Taylor and Bredell showed an inclination to assist the Secret Service men in arresting the others implicated in the conspiracy. Taylor in-formed him that William M. Jacobs, the Lancaster cigar manufacturer who was arrested yesterday approached him nearly five years ago with a proposition, which he accepted, to engrave cigar-stamp plates. For this work Jacobs paid him several thousand dollars. When the first set wore out

Taylor made another. Chief Wilkie related the story of the arrest at Lancaster yesterday of William M. Jacobs, William L. Kendig and James Burns. He said that Taylor and Bredell had admitted cutting the plate from which the famous \$100 "Monroe head" certificate was made. This plate was seized at Kendig's cigar factory in Lancaster yesterday. Taylor told Wilkie that not over \$10,000 of the \$100 certificates had been issued by him and Bredell. He could not how many revenue stamps were printed. In alcobs's factory, Chief Wilkie said, nine tons of

inprinted internal revenue paper was found. Taylor and Bredell were then asked if they had anything to say. Both remained silent. They were committed to the custody of the United States

In speaking of the arrest of Harvey K. Newitt, formerly Assistant United States District-Attorney

In speaking of the arrest of Harvey K. Newitt. formerly Assistant United States District-Attorney in this city, for attempting to bribe Thomas R. McManus, a Secret Service agent, United States District-Attorney Beck said to-day:

"The information furnished to me is substantially to the effect that this gang of counterfeiters suspected that they were under surveillance by Secret Service operatives. They therefore desisted for a time from their work, and for many weeks the game which was being played between the shrewd Becret Service operatives and the almost equally shrewd counterfeiters was a waiting one. Finally, to test whether they were being watched, the counterfeiters determined to bribe an operative of the Secret Service. The information furnished me is to the effect that for this purpose they paid Mr. Newitt very large sums of money, the amount of which I do not care to state, and Mr. Newitt in turn attempted to bribe a certain operative of the Secret Service by offering him a bribe of \$500 a month for twelve months, the conditions of the bribe being that the operative should first inform Mr. Newitt whether any investigation was then in progress, and if not he was to be informed if any were started. For this service, according to my information, Mr. Newitt was to receive a very large sum, the amount of which I am not willing to state at this time, but it will come out at next Tuesday's hearing."

Mr. Newitt said: "I am absolutely innocent, and when an opportunity presents itself to tell my side of the story there will be an entirely different aspect given to the affair. I can only ask the public to suspend judgment until that opportunity is presented."

Jacobs and Burns were brought here from Landenders and taken to the county prison.

Jacobs and Burns were brought here from Lan-caster to-day and taken to the county prison.

COUNTERFEIT GOLD PIECES IN CALIFORNIA San Francisco, April 20.-There is reason to bethat considerable counterfeit gold coin is circulation in this city. Four spurious five-dollar gold pieces were passed late Tuesday night on Frederick Peterson, a bank president. John Keough, an associate of the man who uttered these coins, is in the custody of a Secret Service agent named The police and Federal detectives are in close quest of Keough's companions, one of who close quest of Keough's companions, one of whom is known as Joseph Walker. Keough states that he and Walker came here by way of Puget Sound points from the State of Washington, where they had been employed in a coal mine. On the steamer Queen they met the man who passed the bad money, and he seemed to have a large supply of five-dollar gold pieces, which he spent lavishly. His identity is as yet unknown. The counterfeits are of good mintage.

GOVERNMENT'S LOSS UNKNOWN. Washington, April 20.-The officials of the In-

ternal Revenue Bureau are unable even to approxi-mate the amount of the counterfeit revenue stamps made use of by the Lancaster, Penn., cigar manuers who were arrested yesterday. Several months ago the agents of the Bureau received information that there was something wrong with these factories, and at once began an investigation; but they had not proceeded far before they became aware that Secret Service agents were watching the factories for another purpose, and at the re-quest of Secretary Gage the Internal Revenue officers were directed to abandon the case. A special revenue agent from Philadelphia is now in charge of the factories, and as soon as possible will locate the supply of blue paper from which the stamps were printed. The manufacturers of cigars are required by law to furnish an indemnity bond to comply with the revenue laws, and it is assumed that the amount of the bonds required in these two cases will nearly if not entirely cover the loss the Government might otherwise have sustained. Mr. Moran, the assistant to Chief Wilkie of the Secret Service, has returned from Philadelphia, where he aided in the arrest of the engravers. The evidence against all of the persons under arrest, he says, is overwhelming. The maximum term of imprisonment in such cases is fifteen years under each indictment, and in most of the cases he thinks at least four indictments will be sustained by the Court.

NOT BOUGHT BY FEDERAL STEEL.

The rapid rise of late in the price of the securi-ties of the Tennessee Coal, Iron and Railroad Company and the Colorado Fuel and Iron Company has caused a revival of the rumors current last fall, to the effect that the Federal Steel Company was about to absorb one or both of these properties. about to absorb one or both of these properties. It was denied yesterday, however, at the offices of Flower & Co. and of the Federal Steel Company that these rumors had any basis in fact.

Regarding the telegraphic advices as to the sale of the Birmingham and Southern Railroad, President Samuel Spencer of the Southern Railroad said yesterday that an agreement had been reached with the Tennessee Coal and Iron Company under which the Southern Railway and the Louisville and Nashville would jointly purchase the Birmingham and Southern Railroad, which is the property of the Tennessee Coal and Iron Company. Mr. Spencer was recently elected a director of the Federal Steel Company.

the purchase yesterday, which was for cash at a price which has not been divulged, the trust adds numerous banana plantations and warehouses and a fleet of ten steamers to its interests.

The consolidation of the fruit interests has been going on for some time, the first step being the formation of the Fruit Dispatch Company, which was in effect an exchange for the lines doing business in New-York, Philadelphia, Boston and Baltimore. The Southern lines then followed suit, organizing the Fruit Exchange in this city and working in harmony with the Eastern concern, if not actually a part of it. The next move was the organization of the United Fruit Company, under New-Jersey laws, with \$20,000,000 capital, whose president is A. W. Preston, of the Boston Fruit Company, and whose vice-president is Minor C. Keith, the man who handled the Macheca and Oteri deals. Messrs.
